

**GALAPAGOS ADVENTURE CRUISE
ON M/Y INFINITY
WESTERN ISLANDS**

30 WILDLAND
WILD YEARS ADVENTURES

Itinerary Overview

Begin with an exploration of Quito, South America's oldest capital city and designated UN World Heritage Site, and it's fascinating blend of Indian and Spanish culture, before flying across the sea to your voyage among the unique Galapagos Islands onboard one of the newest and most luxurious vessels in the archipelago, the M/Y Infinity!

An outside dining and bar, as well as a solarium, allow passengers to cruise the Galapagos Islands in luxury and utmost comfort. All eight cabins and suites feature private balconies. This itinerary offers a focus on the archipelago's geothermic origins, with visits to two of the youngest, still volcanically active islands (Isabela and Fernandina) as well as one of the oldest islands with its history told clearly across the landscape of spatter cones and craters (Bartolome). Wildlife abounds, with opportunities to see the most emblematic creatures – giant tortoises, Galapagos penguins, blue & red-footed boobies, brilliant pink flamingoes, the unique flightless cormorant, and giant land iguanas that harken back to dinosaurs! And of course, playful Galapagos sea lions...ubiquitous, but consistently every visitor's most-photographed creature.

DAY	DATE	OVERNIGHT	HOTELS	MEALS	HIGHLIGHTS
1	Sun	QUITO	Swissotel		Fly to Quito
2	Mon	QUITO	Swissotel	BL	Quito City Tour, Mitad del Mundo Equatorial Monument
3	Tue	GALAPAGOS ISLANDS	M/Y Infinity	BLD	Fly to the Galapagos, visit to "David Rodriguez" Giant Tortoise Breeding Center, snorkeling at Puerto Chino
4	Wed	SANTA FE/SOUTH PLAZA	M/Y Infinity	BLD	Giant cactus forests
5	Thu	SANTA CRUZ	M/Y Infinity	BLD	Charles Darwin Station, Fausto Llerena Breeding Center, Los Gamelos pit craters
6	Fri	ISABELA	M/Y Infinity	BLD	Punta Moreno, Elizabeth Bay
7	Sat	ISABELA	M/Y Infinity	BLD	Urbina Bay, Tagus Cove
8	Sun	FERNANDINA / ISABELA	M/Y Infinity	BLD	Punta Espinosa, Punta Vicente Roca
9	Mon	SANTIAGO / BARTOLOME	M/Y Infinity	BLD	Puerto Egas, climb to Bartolome peak
10	Tue	NORTH SEYMOUR / DEPARTURE		B	Geological uplifted island, return flight to Quito, international departure

Itinerary in Detail

DAY 1: ARRIVE IN QUITO

Arrive in Quito and transfer to Swissotel for check-in. **Please Note: We can also accommodate our travelers with arrival and departure from Guayaquil on the delta of the broad Rio Guayas. Please inquire for rates and details.**

DAY 2: QUITO

You begin your Ecuador vacation with a tour of colonial Quito, including the bustling Independence Plaza, the dazzling gold-leafed altars of La Compania Church, and the impressive San Francisco Church. Visit the Mitad del Mundo Equatorial marker and ethnographic village and museum for a fun and informative examination of the curiosities of life on the Equator. Enjoy lunch al fresco at a lively café in the colonial square, or in the Andean foothills with sweeping views of the valleys below.

DAY 3: GALAPAGOS ISLANDS

Private transfer in the morning to the domestic airport for the flight to the Galapagos. Meet your naturalist guide from the M/Y Infinity and transfer to the yacht for check-in and orientation. Visit the new San Cristobal breeding center and observe the work being done on hatchling tortoises which remain here until they are 120 days old, at which time they are “repatriated” to their natural habitats. Time permitting, enjoy hiking and snorkeling opportunities nearby at Puerto Chino.

DAY 4: SANTA FE & SOUTH PLAZA

This morning’s visit is to Santa Fe, a volcanic uplift, starting with a wet landing on a beach populated by lazing sea lions. Here, you can observe one of the few remaining land iguanas of the species (*Conolophus pallidus*) endemic to Santa Fe Island. Some of these iguanas can be 5 feet long and have very pronounced spines along the back, suggesting miniature dinosaurs. Following lunch and repositioning, you land on South Plaza, a small geological uplift with tall cliffs offering spectacular views. After a dry landing, the trails lead you through Prickly Pear cactus or *Opuntia* and *Sesuvium*. Here you find the Galapagos land iguana feeding on the cactus leaves. Toward the end of the hill, you encounter a colony of bachelor sea lions. The dominant bulls will likely be in various stages of recovery from battles lost over prime beach territory. You can also find swallow tailed gulls, shearwaters, and red-billed tropicbirds who build their nests along the cliffs.

DAY 5: SANTA CRUZ

Begin the day with a visit to the world-renowned Charles Darwin Research Station. You observe all three tortoise corals and the breeding center with new hatchlings and miniature tortoises not yet ready to be repatriated to the wild. Scientists from all over the globe work at the station and conduct biological research from anatomy to zoology. You also visit the Van Straelen Hall with exhibits and a short video presentation. Visitors can see the pen of famous Lonesome George, the last surviving member of the Pinta Island subspecies. This afternoon, journey into the verdant highlands to visit *Los Gamelos*, or the Twin Craters. These are not actual volcanic craters, but rather formations created by an ancient collapse of surface materials into underground fissures and chambers. The views here are breathtaking, as is the birdlife.

DAY 6: ISABELA

Following breakfast, board the Zodiacs for the short, scenic ride to Punta Moreno on Isabela Island. From here, you observe penguins and shore birds, including great blue herons, along the beautiful rocky shores. Entering an area of mangroves, your guides point out oysters nesting at the base of trees, providing sustenance for the myriad avian species populating this area. Look for green sea turtles and white-tipped reef sharks in the pools. Later, a land excursion takes you where the terrain is rough, and the lava fields are stark. This almost prehistoric landscape is interspersed with lagoons containing abundant wildlife, including pintail ducks and flamingos. There are several lava cactus and other

pioneering plants here, including a species of *Scalesia*. After lunch onboard, you head back to Isabela's shore, this time to Elizabeth Bay. There will be no landing on this excursion, but a 2-hour Zodiac voyage takes you to many of the islets in the area, where flightless cormorants, penguins, and blue-footed boobies are observed preening in the sunshine and fishing the rich waters. Playful sea lions are also prevalent here, as well as various rays. Have your binoculars and cameras ready!

DAY 7: ISABELA

Isabela Island, larger than all of the other Galapagos Islands put together, is also one of the youngest in the archipelago, and is still active and growing. Today you visit Urbina Bay, located at the base of one of those volcanoes, Alcedo, which as recently as 1954 experienced a major uplift, causing the land to rise over 16'. The coastline also expanded 1/2 mile, leaving marine life suddenly stranded on the new shore. Your hike today allows observations of the largest land iguanas in the Islands as well as giant tortoises. Snorkeling may give you views of sea turtles, rays, and myriad tropical fish inhabiting the coral reefs.

This afternoon's excursion takes you to still another volcano, Darwin, and the lake of the same name. Tagus Cove has been frequented by ships since the early 1800s (look for graffiti from those times, scrawled on the cliff walls!) and the trails winding up the flanks give you astounding views of Fernandina Island, just across Bolivar Channel. Snorkeling here is excellent, particularly with the resident penguins, tiny feathered torpedoes fishing the rich waters.

DAY 8: FERNANDINA & ISABELA

No foreign species has ever invaded Fernandina; therefore it is one of the world's most pristine island ecosystems. Still active La Cumbre Volcano dominates the landscape with undulating lava fields stretching to the ocean, slowly building this youngest island of the archipelago. Visit nesting sites of flightless cormorants and observe hundreds of marine iguanas basking in the sun, penguins, sea lions, and more. After lunch, cross the Bolivar Channel back to Isabela, giving you opportunities to spot whales and dolphins enroute. Punta Vicente Roca is comprised of two separate coves, a large bay rich in spectacular sea life. Snorkeling may bring views of seahorses, turtles, and the strange yet Galapagos fascinating Mola mola (sunfish). Penguins are active, as are blue-footed and Nazca boobies and terns.

DAY 9: SANTIAGO & BARTOLOME

This morning, you have a wet landing at Puerto Egas, Santiago. Stroll with your naturalist guide along the shoreline looking for octopus, starfish, and other sea life caught in the tide pools. At low tide, catch a glimpse of marine iguanas as they feed on exposed green algae. Watch for great blue herons, lava herons, American oystercatchers and yellow-crowned night herons. Your walk ends at the grottos, deep pools of clear water where we encounter fur sea lions once on the verge of extinction due to the fur trade. Before returning to the yacht, there is a snorkeling opportunity with opportunities to view massive numbers of brilliant tropical fish. Bartolome Island many be the most photographed island in the

entire archipelago. After a dry landing, climb 30 minutes up gently ascending stairs leading to the summit of a once active volcano. Along the way, pause to marvel at lava bombs, spatter cones, and cinder cones. From the top of the wooden stairs, gaze out across the island for a panoramic view of the island and iconic "Pinnacle Rock", an eroded tuff cone. Down below, crystal clear water is an invitation to snorkel from the beach or Zodiac with schools of tropical fish and Galapagos Penguins.

DAY 10: NORTH SEYMOUR

Following breakfast, board the Zodiacs for a dry landing at North Seymour, a small geological uplift. You follow a trail that leads you to swallow-tailed gulls, blue-footed boobies, and the endemic land iguanas. Your guide will also lead you to the largest colony of magnificent frigate birds found in Galapagos. As you stroll along the beach, you find marine iguanas and sea lions body surfing the northern swells. After the walk, grab your snorkel and fins to explore the deep water here. One of the most iconic images of the Galapagos is that of Bartolome, or Pinnacle Rock. Walking on this island is reminiscent of walking on the moon. While inhospitable to most plants and animals, this young island is breathtaking in its stark beauty. Your guide will then accompany you to the Galapagos airport for your flight to the mainland where you may remain until international departures this evening.

END OF SERVICES

Actual routes and activities may vary. Local trip coordinators reserve the right to change accommodations to similar quality alternatives.

GALAPAGOS ADVENTURE CRUISE ON M/Y INFINITY NORTHEASTERN ISLANDS

Itinerary Overview

Begin with arrival to Quito, South America's oldest capital city and designated UN World Heritage Site, and it's fascinating blend of Indian and Spanish culture, before flying across the sea to your voyage among the unique Galapagos Islands onboard one of the newest and most luxurious vessels in the archipelago, the M/Y Infinity!

An outside dining and bar, as well as a solarium, allow passengers to cruise the Galapagos Islands in luxury and utmost comfort. All eight cabins plus two suites feature private balconies. This itinerary offers a focus on not only the archipelago's geologic origins, with the effects the land has had on the species that evolved here, but also the Galapagos Islands' human history and the mysteries that still surround many past residents, famous and infamous! Wildlife abounds, with opportunities to see the most emblematic creatures – giant tortoises, Galapagos penguins, all three species of boobies, brilliant pink flamingoes, and giant land iguanas that harken back to dinosaurs! And of course, playful Galapagos sea lions...ubiquitous, but consistently every visitor's most-photographed creature.

Itinerary in Detail

DAY 1: ARRIVE QUITO

Arrive in Quito and transfer to Swissotel for check-in. **Please Note: We can also accommodate our travelers with arrival and departure from Guayaquil on the delta of the broad Rio Guayas. Please inquire for rates and details.**

DAY 2: QUITO

Begin your Ecuador vacation with a tour of colonial Quito, including the bustling Independence Plaza, the dazzling gold-leafed altars of La Compania Church, and the impressive San Francisco Church. Visit the Mitad del Mundo Equatorial marker and ethnographic village and museum for a fun and informative examination of the curiosities of life on the Equator. You will enjoy lunch al fresco at a lively café in the colonial square, or in the Andean foothills with sweeping views of the valleys below.

DAY 3: GALAPAGOS ISLANDS

After a private transfer in the morning to the domestic airport for the flight to the Galapagos, you are met by your naturalist guide and transferred to the M/Y Infinity. Board the Zodiacs for Black Turtle Cove on nearby Santa Cruz Island. You carefully navigate through a series of coves surrounded by lush mangroves. Your naturalist may point out mating marine turtles (Sept-Feb), white-tipped reef sharks, spotted eagle rays and beautiful yellow cow-nosed rays. The Zodiac motors are turned off and all must remain quiet while maneuvering through this magical area. The cove, a maze of tranquil saltwater inlets, is a nursery site for sea turtles, rays, and sharks as well as an important nesting site for sea birds.

DAY 4: GENOVESA

Spend the entire day on Genovesa (Tower), considered to be one of the most spectacular Islands in Galapagos for bird species. This morning, you have a dry landing at El Barranco or Prince Philip's Steps, where you hike to the forest of Palo Santo trees. This is prime location for red-footed boobies nesting. Striking Nazca (formerly masked) boobies nest near the trail. In an open lava field, observe large numbers of storm petrels, and if you are lucky, you will see the elusive short-eared owl. Look for the beautiful red-billed tropic bird usually found in the crevices. Following lunch, you have a wet landing at Darwin Bay, a coral sand beach where swallow-tailed and lava gulls gather near the tide pools. Enter a forest of *Optuntia* cactus and mangroves where colonies of great frigate birds' nest. In a dramatic display, the earthbound males inflate their red-throated pouches to attract females as they fly overhead. The trail leads through a rich inter tidal zone where your naturalist guide helps you identify a wide diversity of wildlife. After the walk, you can swim and snorkel from the beach with sea lions in these warmer northern waters.

DAY 5: SANTIAGO & RABIDA

The Sullivan Bay lava field on Santiago Island presents a fascinating study in patterns. You may observe the impressions of trees which once existed, or the “hornitos” caused when pockets of water trapped beneath the lava flow exploded. In the century since this eruption, only a few plants have succeeded in re-colonizing the surface. Your naturalist guide will point out these hardy pioneers, proof of Nature’s drive to expand and survive. Returning to the shore after your walk, you may observe oystercatchers fishing for crabs and mollusks in the tidal pools. Small coralline beaches welcome snorkelers to jump in with the playful sea lions which inhabit this area. Located south of Santiago,

Rabida is one of the most volcanically varied islands in the chain. Geologically consisting of eroded hills and lava emitted from spatter cones that have resulted in island’s striking colors. A visit begins with a wet landing on the deep maroon-colored northern beach. Marine iguanas and sea lions are often seen resting in the shade of the caves nearby. Behind the beach is the salt brush home where the brown pelicans make their nests. Rabida may be the only opportunity visitors have to see pelicans nesting up close. On the cliffs above the pelicans, blue-footed and masked boobies can be seen. Following the path visitors arrive at a small saltwater lagoon where pink flamingos, Bahama pintail ducks, and common stilts are frequently seen feeding. Rabida offers the best lagoons in the islands for viewing flamingos. These large pink or reddish birds live in shallow saltwater lagoons. They feed 7-12 hours a day, primarily on the pink shrimp larva that give them their color. Continuing up the rocky red cliffs a short 15-20 minute walk leads to a cliff overhang with a fantastic view of the cove with the ocean, lagoon, and scarlet cliffs. Returning back to the beach Rabida offers excellent snorkeling opportunities with sharks and manta rays commonly seen.

DAY 6: SANTA CRUZ

Begin your day with a visit to the Charles Darwin Research Station. Here you may observe the tortoise corrals and the breeding center with new hatchlings and miniature tortoises not yet ready to be repatriated to the wild. Scientists from all over the globe work at the station and conduct biological research from anatomy to zoology. You also visit the Van Straelen Hall with exhibits and a short video presentation. This afternoon takes you into the natural habitat of El Chato Tortoise Reserve. The Reserve is divided into two areas, Chato and Caseta, the latter being the more challenging trek. This area allows visitors to observe the giant tortoises in the wild, and it’s also a great place to spot short-eared owls, Darwin’s finches, yellow warblers, Galapagos rails, and paint-billed crakes.

DAY 7: SANTA CRUZ

This morning’s visit begins at Cerro Dragon, on the northern tip of Santa Cruz Island. Along the trail, you find Darwin finches, Galapagos flycatchers, Yellow warblers, Audubon shearwater, and the brilliantly colored endemic land iguanas. You may also observe the Greater flamingo feeding in saltwater lagoons, as well as stilts, pintail ducks, sandpipers, and more. The view from the summit of the hill is a fantastic photo opportunity, taking in the vast forest of opuntia cactus and fragrant palo santo trees. This afternoon you board the Zodiacs for Las Bachas, which is the Spanish translation for “barges”. The long stretch of a soft white coralline sand beach is a favored spot for nesting sea turtles. A path leads you to interior lagoons where you find the Greater Flamingo, black-necked stilts, and whimbrels, as well as other coastal bird species. There is also a wonderful chance to snorkel here from the beach.

DAY 8: FLOREANA

Today's explorations are a bit more "human influenced," as you visit Post Office Bay, perhaps the most famous site in Galapagos. Here you visit a traditional seafaring post barrel, originally put into use in the late 18th Century by sailors onboard English whaling vessels. You are invited to leave a post card and to pick up any mail from your home area, to distribute upon your homecoming! Floreana presents a rich history with mystery and intrigues worthy of a novel...indeed, the stories here have inspired books and films! The afternoon visit to Punta Cormorant gives you a lovely green-sand beach alive with the sounds of sea lions. Follow a trail to a brackish lagoon, home of the pintail ducks, common stilts, and the pinkest Flamingos in the

world. Your guide will help identify a rich variety of plants including morning glories, cutleaf daisies, palo verdes, and scalesia, all while approaching a beach with powder soft sand. Sea turtles lay their eggs in the sand dunes and brilliantly-colored rays swim in the shallow water.

DAY 9: ESPANOLA

Following breakfast, you have a dry landing at Punta Suarez, where you witness the highest rate of endemic species in Galapagos. Sea lions noisily greet us as you land on "their" beach. Curious Hood mockingbirds peck at your shoelaces. From April to November, the waved albatross, found only on Espanola, perform their mating rituals and raise their offspring on precipitous cliffs. Colonies of blue-footed boobies engage in "sky-pointing" to show off for potential mates. Nazca boobies busily care for their young. Stunning swallow-tailed gulls are the only nocturnal gulls in the world. Red-billed tropicbirds take shelter under the cliffs. You also find Darwin's Finches, Galapagos Doves, and Galapagos Hawks. Here you may observe a unique species of marine iguana identified with traces of red and green colorings. Colorful sally light-foot crabs crawl along the shoreline near the dramatic "blow hole." This afternoon, you have a wet landing at Gardner Bay. Walk along seemingly endless stretches of this white sandy beach where you'll find large colonies of sea lions. There is no trail to follow so this is a chance to explore and discover Galapagos Hawks, Darwin's Finches, or a Hood Mockingbird. Swim with sea lions from the beach. Your expert naturalist guides can point you to an excellent snorkeling site off Gardner Islet with colorful diversity of sea life near Tortuga Rock or caves covered with invertebrates. Return to the yacht at sunset for a farewell dinner and your naturalists' final presentations.

DAY 10: RETURN TO QUITO / INTERNATIONAL DEPARTURE

After a morning visit to the San Cristobal Interpretation Center, your guide returns you to the airport for your mainland flight. Remain at the Quito airport for international departure this evening.

END OF SERVICES

Actual routes and activities may vary. Local trip coordinators and yacht operators reserve the right to change accommodations and activities to similar quality alternatives.

SEE [CURRENT PRICING](#)
SEE [DEPARTURE DATES](#)

INCLUDED SERVICES

- All guided tours and excursions
- English-speaking certified naturalist guides
- Airport-hotel transfers, land and sea transportation
- 9 nights accommodation as indicated
- Meals as indicated [B-Breakfast, L-Lunch, D-Dinner]
- Use of snorkeling gear and wetsuits onboard the M/Y Infinity
- Wildland Adventures travel consultation and pre-departure services

NOT INCLUDED SERVICES

- International airfare
- Tips and gratuities
- Quito-Galapagos air (Will be an additional line on your invoice – please see costs above)
- Galapagos National Park fee, INGALA Ecuadorian transit fee (Will be an additional line on your invoice – please see costs above)
- Drinks, alcoholic beverages, and meals other than listed above
- Personal expenses for extra services, optional activities, or changes in your itinerary for reasons beyond our control
- Travel insurance for trip cancellation, medical services, or evacuation
- Any other items not mentioned above

NOTE: For Galapagos travelers, please be advised that due to weather conditions, vessel operation, and Galapagos Park management, **cruise itineraries are subject to change**. All yacht operators reserve the right to change vessels prior to departure due to maintenance or replacement. On very rare occasions when this occurs passengers will be transferred to another vessel and cabin of comparable or better class (comfort, services, amenities, equipment, etc.) at no extra charge.

ACCOMMODATIONS

SWISSOTEL, QUITO

Swissôtel offers elegant accommodation in Quito's affluent commercial and residential district. It features 2 pools, tennis and squash courts, as well as a spa with jacuzzi and massage treatments. Featuring wood accents and Egyptian cotton linens, rooms at Swissôtel Quito are bright, air conditioned and equipped with free Wi-Fi access. They all come with cable TV channels, minibar and in-room safe. Six on-site restaurants offer a range of dishes from renowned French, Swiss and Japanese culinary traditions. Quito's beautiful Old Town district is 3 km from the Swissôtel.

M/Y INFINITY

One of the most luxurious vessels in the Galapagos, the *M/Y Infinity's* crew of 10 serves 20 lucky passengers in utmost style and comfort. Two top notch naturalist guides feed your curiosity with nightly presentations and daily adventures, while the cruise director sees to smooth sailing onboard. The Main Deck has 6 twin/double cabins, while the Upper Deck features 2 twin/double cabins plus 2 King bed suites.

Booking your Wildland Adventure

HOW TO RESERVE A TRIP

You can book online using our [Reserve a Trip form](#) or by calling 1-800-345-4453. Your space on a trip is confirmed once we receive your reservation form and initial trip deposit. All travelers must sign and submit a [Release of Liability](#).

DEPOSIT REQUIREMENTS ARE AS FOLLOWS:*

- 20% per person for all trips the Galapagos. ***This deposit is non-refundable.***

*Some trips require additional non-refundable deposits, especially when yachts have been chartered, or if permits to visit archaeological or wildlife sites have been purchased in advance.

CUSTOM TRAVEL

This trip isn't exactly what you're looking for? We are happy to design a private custom itinerary to accommodate your travel dates, interests and style of accommodations. Call us at 1-800-345-4453, send an email to info@wildland.com, or use the Ask The Program Director button on our website.

PAYMENTS, CANCELLATIONS AND REFUNDS

Full payment of the trip balance is due 90 days prior to departure. If you must cancel before departure, money will be returned less the cancellation fees charged by WA Inc. ***plus any additional non-refundable cancellation fees and payments already advanced to yacht companies, airlines, hotels and local operators:***

Wildland Adventures Cancellation Fees:

<u>Days Prior to Departure</u>	<u>Fee</u>
61 or more	Initial deposit amount
31-60 days	50% of costs
30 or less	100% of costs

No partial refunds are possible for any unused portion of your trip. Penalties on airline tickets are subject to the individual air carrier's rules and regulations. Departure is defined as the date of the first flight, or the trip departure date as indicated on our *Trip Schedule*, whichever comes first. Cancellation fees are based on the date your written notification is received at WA Inc.

PRE-DEPARTURE SERVICES

Upon receipt of your deposit and completed reservation form, we will send you a comprehensive Pre-departure Dossier. This contains important information to help you prepare including immunizations, visas, trip insurance, packing checklist, reading list, maps, cross-cultural information, optional trip extensions and more. You will receive a final trip packet including Final Reminders and local contact information in your destination 2-3 weeks prior to departure.

REFERENCES AND QUESTIONS

Have any questions or concerns? Call us a 1-800-345-4453 or email info@wildland.com. We're here to help and are happy to provide you with references from previous Wildland travelers.

TERMS AND CONDITIONS: Wildland Adventures, Inc. has arranged your trip utilizing the travel services of local in-country ground operators who are independent contractors. These local outfitters, lodges, hotels and other suppliers of your travel services will make every effort to conduct this trip as described in the itinerary. It is however possible that due to transportation schedule changes, weather, delays and unforeseeable acts of God, humans or nature, this itinerary may vary from what is described. Participants must assume all risks whether identified in advance or unforeseen. All optional activities are at your own risk. Extra costs due to unexpected changes in your itinerary for reasons beyond our control are not included. We highly recommend purchasing traveler's insurance for trip delay, trip cancellation, baggage, accident or sickness. Representatives are available for assistance at any time during your trip. If preferred hotels are not available, every attempt will be made to reserve alternative accommodations of similar quality. (If upgrade is necessary, higher rates may apply.) All information and services provided are subject to our [Terms and Conditions](#).
